

composer in 2 minutes

@Sgoettschkes

Lets make music!

Install composer

```
curl -sS https://getcomposer.  
org/installer | php
```

Install dg/twitter-php

```
{  
    "require": {  
        "dg/twitter-php": "v3.1"  
    }  
}
```

+

```
composer.phar update
```

Use it!

```
<?php
require_once __DIR__.' /vendor/autoload.php';
$twitter = new Twitter("cKey", "cSecret",
"accessToken", "accessTokenSecret");
$twitter->send('2 minutes already?');
```

Stop the clock!

We are done!
