Behat in 2 minutes

@Sgoettschkes

Write user stories

Scenario: Homepage link to contact
Given I am on the homepage
When I click on "contact"
Then I should be redirected to contact page

Implement how to act upon them

```
/**
  * @Given I am on the homepage
  */
    public function iAmOnHomepage()
    {
        // do something

    }
```

Acceptance test framework

Mink

Layer between PHP and browser emulator:

- Goutte
- Sahi
- Zombie.js
- Selenium
- Selenium2

Stop the clock!

Thanks!
